BISCUITS

INGREDIENTS

300ml flour
125ml sugar
½ ml salt
2ml baking powder
100 g margarine (or butter)
½ egg
1ml vanilla essence

METHOD

1. Sift dry ingredients together.
2. Cut and rub in margarine.
3. Add egg and flavouring and mix well.
4. Roll out and cut into shapes.
5. Bake on a greased baking tray at 190°C for 8 minutes.
6. Cool on a cooling rack.
7. Store in an air tight container.

Variations

Chocolate: add 5ml cocoa and 40 ml chocolate chips
Spice: add ¼ ml nutmeg and ¼ ml cinnamon
Fruit: add 40 ml mixed fruit OR cherries, finely chopped
Nuts: add 40ml chopped nuts.
Coconut: add 40 ml coconut

Glacè icing

INGREDIENTS

- 100g icing sugar - sifted
- 15ml spoon (1tbsp) water

METHOD

1. Mix sifted icing sugar with water in a bowl.
2. Beat until smooth, add colour and flavouring as required.
3. The icing consistency needs to be thick enough to coat the back of the spoon. - Remember to do it little by little.

CRUNCHIES

INGREDIENTS

125ml flour
125ml sugar
25 ml oats
125ml coconut
4ml bicarbonate of soda
120g margarine
10ml golden syrup

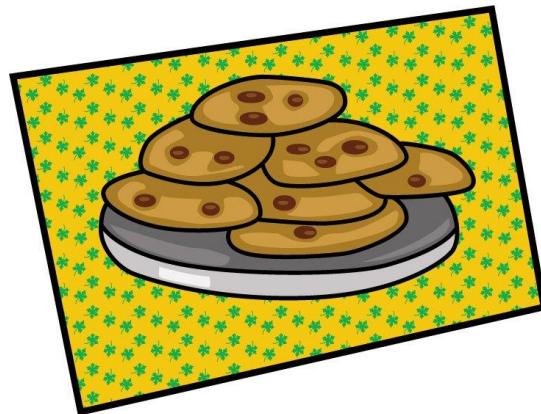

METHOD

1. Place all dry ingredients in bowl.
2. Melt margarine and syrup.
3. Add to dry ingredients and mix well.
4. Press firmly into a greased Swiss roll tin.
5. Bake in a moderate oven at 190°C for 12-15 minutes.
6. Cut into squares and cool.

CHOCOLATE CHIP COOKIES

INGREDIENTS

300g margarine
1 cup brown sugar
2 eggs
2 ½ cups of flour (375ml)
1 tsp salt
1 tsp bicarbonate of soda
2 tsp vanilla essence
½ cup chopped nuts
200g chocolate chips

METHOD

1. Cream margarine and sugar.
2. Add eggs, beating well after each addition, until the mixture is light and creamy.
3. Add vanilla essence.
4. Sift flour, salt and bicarbonate of soda.
5. Add to creamed mixture. (Mixture must be quite firm)
6. Add chopped nuts and chocolate chips.
7. Take heaped teaspoonfuls of this mixture and roll it into balls.
8. Press each ball flat.
9. Place onto a baking tray.
10. Bake at 180°C for 10 minutes. Cool

CHOCOLATE ECLAIRS

CHOUX PUFFS

INGREDIENTS

125ml flour
125ml boiled water
60ml margarine
pinch of salt
2 eggs

METHOD

1. Preheat oven to 220°C.
2. Grease a baking tray.
3. Sieve dry ingredients together.
4. Melt margarine in saucepan. Add boiled water
5. Bring liquid to the boil, add flour all at once and beat with a wooden spoon.
6. Cook until the mixture leaves the sides of the saucepan. Set aside to cool.
7. Beat the eggs and add them in one at a time.
8. Use a dessert spoon and a teaspoon or a piping bag and place onto baking tray.
9. Bake for 10-15 minutes at to 220°C then turn the temperature down to 170°C and bake for a further 10minutes.
10. Remove from oven and prick immediately.
11. Fill the puffs with cooled Confectioners' custard or stiffly beaten cream.
12. Pour the chocolate glaze icing over the top.
13. Serve on a plate with a doily.

CONFECTIONERS CUSTARD FOR ECLAIRS

INGREDIENTS

60ml margarine	1 egg
100ml flour	2ml vanilla essence
220ml milk	20ml sugar

METHOD

1. Melt the margarine and add the flour.
2. Remove from heat and slowly add the milk while stirring continuously.
3. Return to heat and stir until thick
4. Add sugar and leave to cool.
5. Mix the egg and vanilla together.
6. Pour some of the hot sauce into the cooled egg mixture and stir.
7. Return to heat, do not boil.
8. Cool and fill puffs. (no. 11)

ALLEN GLEN HIGH SCHOOL
GRADE 11 RECIPES

CHOCOLATE GLACÉ ICING

INGREDIENTS

100ml icing sugar
50ml cocoa
25ml boiling water

METHOD

1. Sift icing and cocoa into a bowl
2. Gradually add boiling water, stirring all the time until a smooth consistency is reached.
3. Drizzle over puffs.

BASIC DOUGH

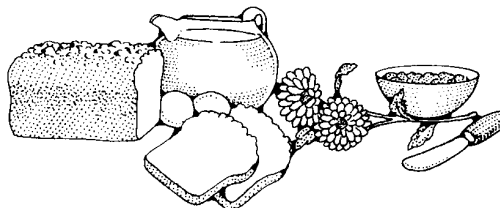

INGREDIENTS

2 cups cake flour
5ml salt
10ml sugar
10g instant yeast
175ml lukewarm water

METHOD

1. Mix the flour, salt and sugar together.
2. Add the instant yeast and mix.
3. Add enough lukewarm water to form a soft dough.
4. Knead the dough for 10 minutes until soft and elastic.
5. Leave to rest. Cover dough in greased plastic and refrigerate.

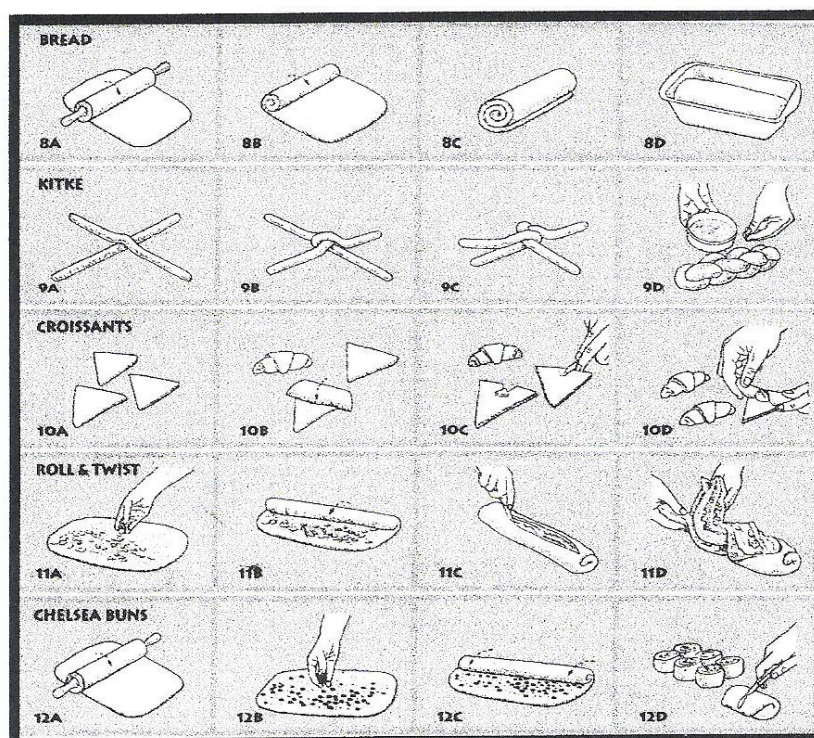

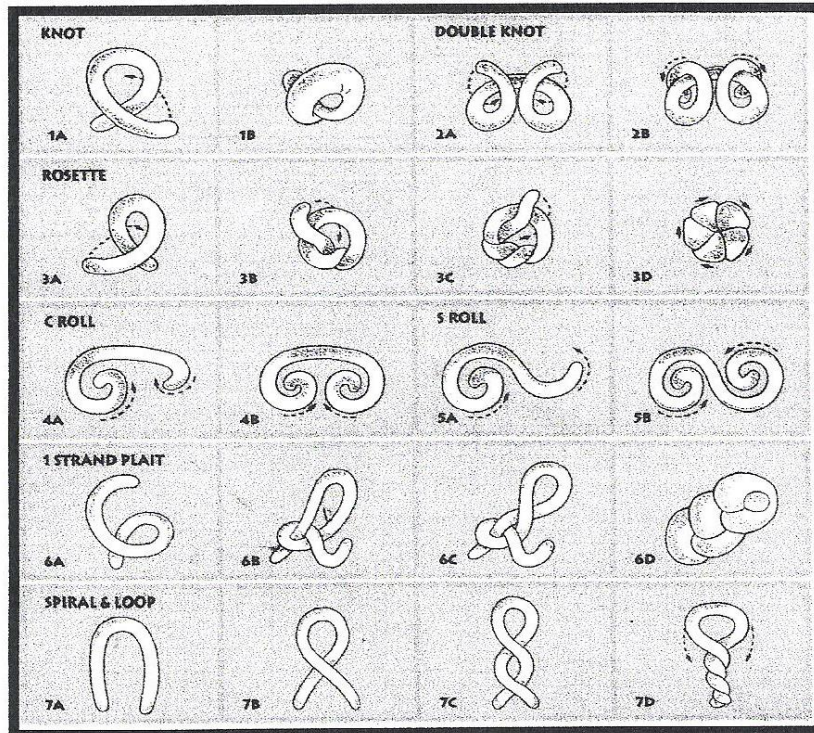

Use dough to prepare pizza, doughnuts, Chelsea buns etc.

ALLEN GLEN HIGH SCHOOL
GRADE 11 RECIPES

SHAPING AND MOULDING

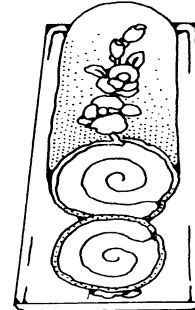

SWISS ROLL

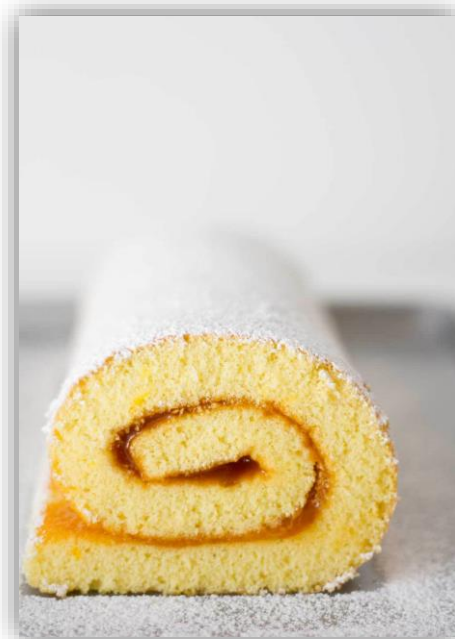

INGREDIENTS

125ml flour
3 eggs
125ml sugar
1ml salt
5ml vanilla essence

METHOD

1. Line a Swiss roll tin.
2. Set oven to 180°C.
3. Beat eggs well then add sugar and beat well until light and fluffy.
4. Sieve flour and salt together 3 times.
5. Add the flour mixture to the egg mixture.
6. Scrape the batter into prepared tin and bake for 12 minutes.
7. Turn out onto a piece of wax wrap sprinkled with castor sugar on top of a damp tea towel, spread with filling and roll while still warm.
8. Cut sides off and sprinkle with castor sugar.
9. Serve – should be eaten within a day.

NOVELTY CAKE

INGREDIENTS

750ml flour
6 eggs – separated
200ml water
30ml baking powder
400ml sugar
10ml vanilla essence
4ml salt
200ml oil

METHOD

1. Sift together flour, baking powder and salt.
2. Beat the egg yolks and remaining ingredients together.
3. Add flour mixture and beat just until well mixed.
4. Beat egg whites till stiff but not dry, and fold into the mixture with a metal spoon.
5. Bake in 2 greased layer cake pans at 190°C for 20 minutes.
6. Cool, seal and freeze

Variation:

- ***Substitute 50ml cocoa for 50 ml flour.***
- ***Substitute orange juice for water.***

Basic Butter Icing

60g margarine
250g icing Sugar
Drop of milk

1. Soften margarine
2. Sift icing sugar
3. Blend with a little milk.
4. Add colour

For chocolate icing –

- Follow step 1 and 2
- Blend cocoa powder with some hot water.
- Add to icing.

CARROT CAKE

INGREDIENTS

2 eggs
250ml flour
1ml ground ginger
1ml salt
1ml bicarbonate of soda
375ml grated carrot
1/1 grated apple
125ml oil
180ml castor sugar
2ml cinnamon
1ml ground cloves
5ml baking powder
65ml chopped pecan nuts (optional)

CREAM CHEESE ICING

50g margarine
250ml icing sugar
50g cream cheese
1ml vanilla essence
pecan nuts for decoration

METHOD

1. Preheat oven to 180°C.
2. Beat eggs and sugar together until light and fluffy.
3. Add oil and beat well.
4. Sift dry ingredients together and add to beaten egg mixture.
5. Fold in carrot, (nuts) and apple.
6. Pour into a lined 20cm cake tin.(OR loaf tin).
7. Bake for 35-40 minutes.

ICING

1. Mix all ingredients together and spread over the cooled cake.

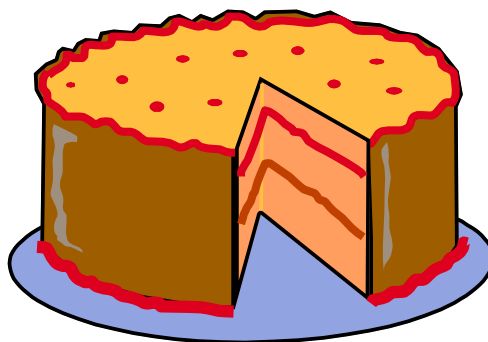

CHOCOLATE CAKE

INGREDIENTS

75ml cocoa
150ml warm water
5ml vanilla essence
250ml flour
250ml sugar
2ml salt
10ml baking powder
125ml oil
3 eggs separated

METHOD

1. Pre-heat oven to 190°C
2. Prepare 200mm cake tin by greasing, then lining the base with greaseproof paper.
3. Mix cocoa, warm water and vanilla together.
4. Sieve dry ingredients together.
5. Make a well into the flour and pour in oil, egg yolks and cocoa mixture.
6. Beat for 2 minutes.
7. Whisk the 3 egg whites until stiff and FOLD them into the mixture.
8. Pour batter into the prepared tin and bake for 30-35minutes.
9. Remove from oven and cool.
10. Use your own topping to decorate.
11. Serve

BANANA BREAD

INGREDIENTS

125g margarine
300ml sugar
2 eggs
2/3 ripe bananas
500ml flour

5ml baking powder
1ml salt
4ml bicarbonate of soda
200ml milk

METHOD

1. Grease a loaf tin well.
2. Cream margarine and sugar together.
3. Beat eggs and add.
4. Mash bananas and add.
5. Sift dry ingredients.
6. Add sifted ingredients to creamed mixture alternately with milk.
7. Mix well.
8. Pour into prepared loaf tin and bake at 180°C for 45 – 50 minutes.

GINGERBREAD

INGREDIENTS

125ml sugar
125ml golden syrup
125ml margarine
125ml water
1 egg

500ml flour
10ml ground ginger
10ml ground cinnamon
5ml bicarbonate of soda
salt

METHOD

1. Place sugar in a measuring cup and add the syrup to it.
2. Place the butter in a saucepan and add the water to it. Bring to the boil.
3. Combine the two mixtures and mix well.
4. Sift the dry ingredients and add to the above mixture.
5. Mix well.
6. Line a loaf pan and pour the dough into it.
7. Bake at 180°C for 45 – 60 minutes.

DEVONSHIRE CAKE

BATTER

INGREDIENTS

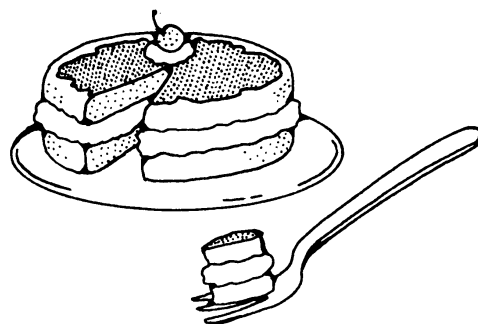

275ml flour
250ml castor sugar
10ml baking powder (5ml in dry ingredients, 5ml in egg whites)
125ml boiling water
125ml oil
4 large eggs, separated

FILLING:

125ml cream and some sugar to taste.

CHOCOLATE ICING

60g plain chocolate
20ml water
5ml instant coffee
50ml icing sugar, sifted

METHOD:

1. Preheat oven to 290°C.
2. Prepare two 200mm cake tins. (grease and line with wax wrap).
3. Sift dry ingredients. (5ml baking powder.)
4. Add boiling water and stir with a wooden spoon.
5. Add oil and beat with an electric beater until smooth.
6. Beat the egg yolks, and add to flour mixture. Beat well.
7. Beat egg whites until stiff peak stage.
8. Fold in extra 5ml baking powder with a METAL spoon.
9. Fold egg whites into flour mixture.
10. Pour the cake mixture into cake tins and bake for 15-20 minutes.
11. Leave to cool in cake tins for a while.
12. Remove from cake tins and peel paper from base. Leave to cool completely.
13. Melt the chocolate in a double boiler.
14. Remove from heat and beat in water, coffee powder and icing sugar.
15. Whip the cream until thick and flavour with sugar.
16. Place cream between the two cakes and pour chocolate icing over top. Do this step on the cooling rack, so that icing does not drip onto serving plate.
17. Serve.

MILK TARTLETS

INGREDIENTS

CRUST

30 ml margarine
30 ml sugar
25 ml beaten egg
125 ml cake flour
1 ml baking powder
pinch salt

FILLING

300 ml milk
15 ml margarine/butter
25 ml cake flour
25 ml corn flour
pinch salt
50 ml sugar
1 ml vanilla essence
2 large eggs, separated

METHOD

CRUST

1. Pre-heat oven to 180°C.
2. Cream the margarine and sugar together
3. Add the egg and mix till light in colour
4. Sift the dry ingredients together and add to the creamed mixture. Mix to form a dough
5. Roll out and line 4 small foil containers (9 cm in diameter x 2.5 cm deep)
6. Bake blind for $\pm$ 20 minutes until golden brown

FILLING

1. Heat 250 ml milk. Mix 50 ml cold milk with cake flour, sugar, corn flour and salt to a paste.
2. Add some of the hot milk to the cake flour mixture and mix till smooth. Add to the rest of the hot milk and boil for 2 minutes while stirring. Add the butter / margarine.
3. Add a 50 ml of the boiled mixture to the beaten egg yolks and mix well. Add the remaining hot mixture and mix. Bring just to boil. Add vanilla essence.
4. Beat the egg whites till soft peak stage and fold in the milk mixture. Divide the mixture in the four foil containers.
5. Sprinkle cinnamon on the milk tartlets.

QUICHE LORRAINE

PASTRY

1. Rub 60g of margarine into 240ml flour, 2ml salt and 1ml paprika till it resembles bread crumbs. A food processor may be used to mix the above.
2. Add 90ml grated cheese.
3. Mix together 1 egg yolk and 35ml ice-cold water.**
4. Add to the flour mixture – mix with a knife until a soft, firm dough.
5. Place in the fridge for approx. 30 mins.
6. Roll out dough on a floured surface and line a pie dish.

FILLING

INGREDIENTS

1 medium onion
3ml dry mustard
80ml milk
Salt
60g rindless bacon
20g margarine
80ml cream (or sour cream)
Freshly ground pepper
30ml parmesan cheese
2 eggs + 1 white (see above)**
80ml cheese

METHOD

1. Chop onions finely.
2. Remove fat from bacon and cut into small pieces.
3. Melt margarine in pan and lightly fry onions and bacon.
4. Remove from heat, cool down slightly and stir in parmesan cheese.
5. Beat eggs, milk, cream or sour cream, mustard, salt and pepper.
6. Grate cheese and sprinkle over pastry base.
7. Spoon onion and bacon mixture over cheese.
8. Lastly spoon over the egg mixture.
(Do not pour as it may make a hole in the pastry.)
9. Bake for 10 min. and then lower temperature to 180°C.
10. Serve hot with a salad.

APPLE TART

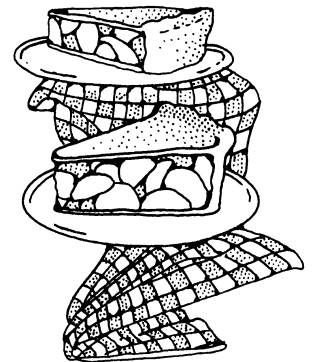

INGREDIENTS

BASE

100ml margarine
25ml sugar
25ml cooking oil
350ml flour
1 egg
5ml baking powder
pinch salt

FILLING

350ml tinned apples*
seedless raisins
cinnamon
sugar

METHOD

1. Cream margarine and sugar together. Add egg and beat well. Add oil, flour, baking powder and salt. Beat well. Place one third of the pastry into the freezer to cool.
2. Press two thirds of the pastry into a greased pie dish and cover with apple. Sprinkle top with seedless raisins and sugar and cinnamon.
3. Grate the remaining pastry which has been in the freezer over the top.
4. Bake at 180°C for 20 – 30 minutes.

**** Use 3 – 4 fresh apples, cored, peeled and cut into pieces.
* Boil in sugar water until soft.***

ALLEN GLEN HIGH SCHOOL
GRADE 11 RECIPES

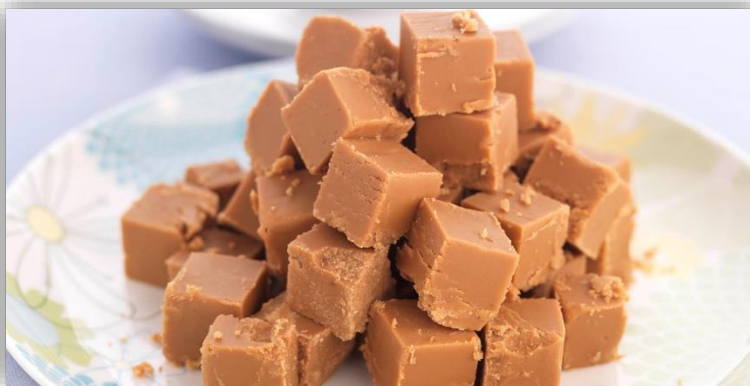

FUDGE

INGREDIENTS

4 cups sugar
125g butter or margarine
250ml water
1 large tin condensed milk
5ml vanilla essence

METHOD

1. Melt butter. Add sugar and water.
2. Bring to the boil, stirring well so that the sugar is dissolved before boiling point is reached.
3. Add condensed milk. Stir slowly boiling fudge for approximately 30 minutes until softball stage is reached.
4. Remove from heat. Add vanilla. Stir vigorously for approximately 2 minutes.
5. Pour into buttered pans. Cut while warm.

Fudge making tips:

- ***Use a sugar thermometer for accuracy.***
- ***To prevent sugary fudge, use a heavy saucepan with straight sides.***
- ***Stir continuously while mixture heats so fudge will not stick and burn.***

For creamy fudge, remove sugar crystals from pan above the boiling level. To do this, wipe sides of pan with wet pastry brush OR when fudge boils, cover pan for 1 minute to allow steam to wash down the crystals.

FUDGE BROWNIES

INGREDIENTS

250g margarine
1 cup cocoa
2 cups sugar
4 eggs
1 tsp vanilla essence
1½ cups flour
salt

METHOD

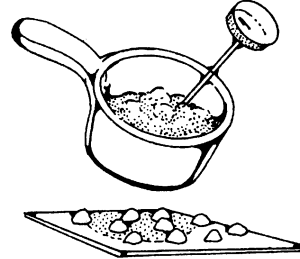

1. Melt the margarine.
2. Stir in cocoa, sugar, eggs, vanilla and flour.
3. Stir gently – do not beat.
4. Smooth into a well greased baking pan.
5. Bake at 180°C for 30-35minutes.
6. Cool slightly, cut into squares, sprinkle with icing sugar.
7. Remove from the pan.

MARSHMALLOWS

INGREDIENTS

60ml cold water
185ml boiling water
1 egg white
3ml vanilla essence
37ml gelatine
500ml sugar
pinch of salt
icing sugar and cornflour mixed
(2 parts icing sugar to 1 cornflour)

METHOD

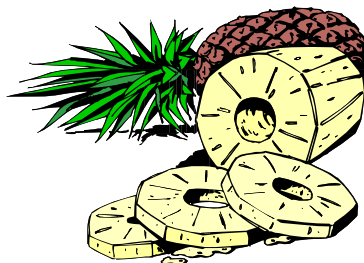

1. Pour the water into a large bowl, sprinkle over the gelatine and leave to soak.
2. Add the boiling water and stir until dissolved.
3. Add the sugar, egg white and salt. Beat with an electric beater for 15-20 minutes, until very stiff and firm enough to hold its shape.
4. Flavour with the vanilla essence.
5. Sprinkle a baking tray with some of the icing sugar/cornflour mixture. (Toasted coconut may also be used.)
6. Pour the mixture into the baking tray and sprinkle with the remaining icing sugar/cornflour mixture. Leave to set. Cut into squares.
7. Store in an air-tight container. Do not make more than a few days in

BOTTLED PINEAPPLES

INGREDIENTS

2 pineapples
250ml sugar
500ml water
1 Consol jar

METHOD

1. Preheat oven to 100°C. Place a metal baking sheet in the oven.
2. Wash the jars and lids thoroughly.
3. Place the jars and the lids into a large saucepan and cover with hot water.
4. Bring to the boil for five minutes.
5. Remove and place the jars and the lids upside down on baking sheet in the oven.
6. Peel and core pineapple.
7. Cut into rings (about 1cm thick).
8. Dissolve sugar in water. Bring to the boil.
9. Remove bottles from the oven. Turn upright on baking tray.
10. Pack pineapple rings into bottle. Place cherries in centre.
11. Pour boiling hot syrup into bottle until overflowing.
12. Place the lid on top and secure with the metal band.
13. Allow to cool and form a vacuum.
14. Wipe the bottle.

PICKLED ONIONS

INGREDIENTS

250g small white onions (approx. 10 per bottle).
1ml whole peppercorns
300ml brown vinegar + 100ml water
1ml salt
25ml sugar

METHOD

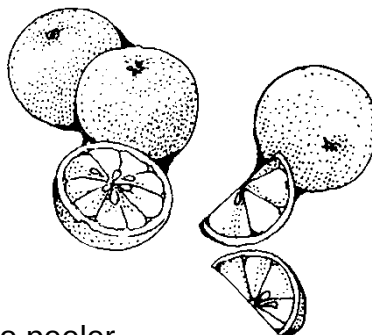

1. Sterilise bottles and lids.
2. Peel onions.
3. Boil salt and peppercorns in vinegar for 7-10 minutes. Remove from heat.
4. Place peeled onions into hot vinegar and allow to float for 5 minutes.
5. Pack onions into sterilized bottles with peppercorns in between.
6. Reheat vinegar to boiling point. Pour over onions until overflowing.
7. Seal while hot.

MARMALADE

INGREDIENTS

2 oranges
750g sugar
1 lemon
2 honey bottles
625ml water

METHOD

1. Wash fruit and peel the rind thinly with a potato peeler.
2. Shred the rind finely.
3. Cut up the remainder of the fruit roughly.
4. Remove pips and place in a muslin bag. Tie with string.
5. Place shredded rind, fruit and bag of pips in a large bowl.
6. Add water and leave to soak overnight.
7. Next day, boil fruit for 40 minutes until it is tender.
8. At this stage pectin test may be done.
9. Discard pips and add the correct quantity of sugar.
10. Heat and stir until sugar has dissolved on low heat.
11. Turn up heat and boil quickly until marmalade reaches gel stage. (about 30 min).
12. Leave marmalade for 3-5 minutes to cool. (Enables fruit to be evenly distributed).
13. Bottle, cool and seal.

PECTIN TEST

1. Use the clear juice for testing.
2. Take 12,5ml fruit juice and add to a glass containing 25ml methylated spirits.
3. Leave to stand for a couple of minutes and then swirl the glass.
4. Pour carefully into a saucer.
5. One clot 250ml juice = 250ml sugar.
6. Two clots 250ml juice = 200ml sugar

PLUM JAM

INGREDIENTS

500g plums
water
500g sugar
2 honey bottles

METHOD

1. Wash plums and place in a heavy based saucepan.
2. Add water to cover and boil for 20 min.
3. Sieve the mixture and return to saucepan.
4. Add sugar and stir until dissolved.
5. Bring to the boil and stir until the gel stage.
6. Remove from heat, bottle, cool and seal.

DRIED APRICOT JAM

INGREDIENTS

185g dried apricots
500ml water
500g sugar

METHOD

1. Wash apricots and place in a large mixing bowl with cold water. Soak for 48 hours
2. Place apricots and water into a large saucepan and bring slowly to the boil.
3. Add the sugar to the fruit and water – stir gently until all the sugar has dissolved.
4. Boil for about 1 hour until the jam sets when tested.
5. Pour into dry sterilized jars and leave to cool.
6. Seal with melted wax once cooled and seal lid tightly.

MIXED BERRY JAM

frozen mixed berry and vanilla jam

☞ Makes about 5 cups

🕒 Takes 1 hr 20 mins + cooling

2kg frozen mixed berries

1kg sugar

80ml apple juice

1 vanilla bean, split lengthways

- 1 Heat all the ingredients in a large saucepan on high, stirring (without boiling), until sugar dissolves. Brush down sugar crystals on the sides with a wet brush.
- 2 Bring to a boil, uncovered and without stirring for about 1 hour or until the jam jells (see note) when tested. Stir occasionally towards the end of cooking time to prevent it from burning. Pour hot jam into sterilised jars and seal immediately.

Advance

tip

Store sealed jam in a cool, dark place for up to 1 year. Once opened, store in the refrigerator for up to 3 months.

variations

- You can make this with fresh berries – use 1kg fresh berries and cook for about 40 minutes.
- Replace the vanilla bean with 15ml vanilla essence when the jam has finished cooking.

serving suggestions

Serve on sponge cake with whipped cream, on toast, pastries, scones, croissants, oats, waffles or crumpets.

jelling

Jam will jell at 105°C on a sugar thermometer. You can also do the saucer test – spoon some jam onto a plate and let it cool for about 5 minutes in the fridge. Draw your finger through it and if the skin wrinkles and the line remains it is ready. If not, return

to heat, boil for 5 minutes and test again. Repeat this process until it jells. If it refuses to jell, add a good squeeze of lemon juice, boil and test again. If this doesn't work, add commercial pectin, following the packet instructions.

your
family
.co.za

Go online for tips on sterilising jars as well as more info to make your own jams with different fruits.

LEMON MERINGUE PIE

BASE

Melt 100g margarine and add approx. ½ packet crushed Marie biscuits. Mix well. Press into pie dish.

FILLING

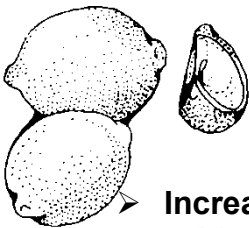

Mix 1 tin condensed milk, 3 egg yolks, 70ml lemon juice. Pour over crust. Allow to stand for 5 minutes until thickened.

TOPPING

Beat 3 egg whites to the stiff peak stage; beat in 150ml sugar gradually until a thick meringue is formed.

Spoon over base and filling ensuring that the biscuit base is completely covered. Use the back of the spoon to make peaks in the meringue.

Bake at 160°C for 20 – 30 minutes until meringue has set.

Variations:

- Increase amount of lemon juice to make it more 'lemony'.
- Add granadilla pulp instead of lemon juice to make a Granadilla Meringue pie.

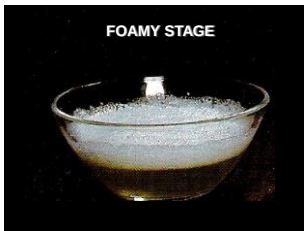

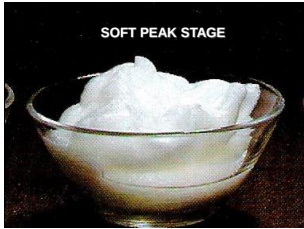

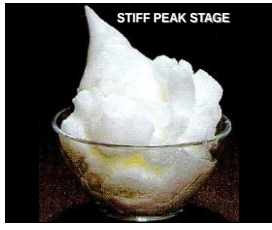

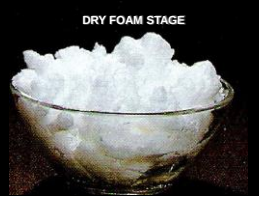

Tips for beating air into egg whites.

- The bowl and beaters should be absolutely clean. If there is a little oil residue in the bowl or a little hint of yolk in the whites, it will interfere seriously with the formation of air bubbles.
- Use a plastic/glass bowl with sloped sides for easy beating.
- The bowl should also be dry as water will inhibit the formation of the foam.
- Beat the whites at room temperature. The proteins in the whites expand better when warm, so you will get better volume from the eggs. Older eggs also whip more easily because of chemical changes that have taken place as they aged.

STAGES OF FOAM FORMATION

STAGE	CHARACTERISTICS	USE
FOAMY STAGE 	The egg whites are just lightly whipped to a frothy but still fluid consistency. They will consist of large bubbles on the surface that readily pop. The foam will not hold any peaks when the whisk is lifted from it.	• Binding agent • To make fruit jellies and soups clear.
SOFT PEAK STAGE 	This means that the foam is moist, shiny and bright white. When the whisk or beaters are lifted, the foam will form a dull peak, then pile softly or gently curl over. It will also flow when the bowl is tilted.	• Sponge cakes • Soft meringue
STIFF PEAK STAGE 	At this stage, the foam maintains its glossy sheen and holds an upright peak when the whisk or beaters are lifted. It will not flow, or will just barely flow, when the bowl is tilted. At this point, the foam has reached its maximum volume.	• Soufflè • Hard meringue • Puffy Omelettes
DRY FOAM STAGE 	You will know that the egg whites are overbeaten when the foam begins to look dry and granular. To rescue overbeaten egg whites, add an extra fresh white and beat until you have a glossy foam that holds the desired peaks.	• No use

TERMINOLOGY

AL DENTE

"To the tooth", a term to indicate pasta is cooked just enough to keep a firm texture.

AU GRATIN

A *gratin* is any dish that is topped with cheese or bread crumbs mixed with bits of butter, then heated in the oven until brown and crispy.

BAVARIAN CREAM

Fruit pulp and whipped cream are folded into a sponge (gelatin dispersion and whipped egg white). An egg custard can also be present.

BAKING POWDER

A [LEAVENER](#) containing a combination of baking soda, an acid (such as [CREAM OF TARTAR](#)) and a moisture-absorber (such as cornstarch). When mixed with liquid, baking powder releases carbon dioxide gas bubbles that cause a bread or cake to rise. There are three basic kinds of baking powder. The most common is double-acting, which releases some gas when it becomes wet and the rest when exposed to oven heat. Single-acting tartrate and phosphate baking powders (hard to find in most American markets because of the popularity of double-acting baking powder) release their gases as soon as they're moistened. Because it's perishable, baking powder should be kept in a cool, dry place.

BAKING SHEET

A flat, rigid sheet of metal on which cookies, breads, biscuits, etc. are baked. It usually has one or more turned-up sides for ease in handling

BEAT

To stir vigorously: *Beat the egg whites well.*

BICARBONATE OF SODA

is used as a [LEAVENER](#) in baked goods. When combined with an acid ingredient such as buttermilk, yogurt or molasses, baking soda produces carbon dioxide gas bubbles, thereby causing a dough or batter to rise.

BLANCH

To partially cook fruits, vegetables, or nuts in boiling water or steam.

BLEND

Mix until smooth.

BUTTER

Made by churning cream until it reaches a semisolid state, butter must by U.S. law be at least 80 percent [MILK FAT](#). The remaining 20 percent consists of water and milk solids.

ALLEN GLEN HIGH SCHOOL
GRADE 11 RECIPES

CHOP

Cut food into small pieces.

CHOUX PASTRY

A traditional French pastry. When baked it should be light, crisp and hollow puff.

COAT

To evenly cover food with crumbs, flour or a batter.

CORE

Remove centre of fruit, eg. apples or pineapples with a sharp knife or apple corer.

CREAM

Combine shortening (butter or margarine) and sugar with a wooden spoon.

CUT IN

To work a solid fat such as shortening, margarine or butter into dry

DECORATE

Decorate a sweet dish like a cake.

DICE

Cut into small cubes.

DRAIN

Remove excess liquid.

EMULSION

An emulsion is formed when two immiscible liquids, i.e. liquids that can't mix, i.e. water and oil, are mixed together with the acid of an emulsifier – mayonnaise = oil and water (vinegar/lemon juice) and egg yolk (lecithin).

FLAVOUR

Add herbs and spices to improve taste.

FOLD IN

With a gentle movement, use a thin metal spoon to combine ingredients. Eg egg white.

GARNISH

To decorate a savoury dish. (Parsley)

GLAZE

Brush surface of food (eg. with beaten egg) to improve appearance.

GREASE

Rub fat (or spray with non-stick spray) on container to prevent sticking.

JULIENNE

To cut food into thin match like sticks about two inches long.

KNEAD

To work dough with the heels of your hands in a pressing and folding motion until it becomes smooth and elastic.

MAIZENA

Cornflour. Refined maize starch. Used for thickening sauces.

MARGARINE

Developed in the late 1800s as a butter substitute, margarine (which is less expensive but not as flavorful as butter) is made with vegetable oils. In order for margarine to become solid, the oil must undergo a chemical transformation known as hydrogenation — indicated as hydrogenated (or partially hydrogenated) oils on a label.

MIX

Combine ingredients with a spoon.

PEEL

Remove outer layer of skin.

PREHEAT

To heat the oven to a temperature before using it.

PROVING

Yeast dough covered and left in a warm place to double in size.

QUICHE LORRAINE

Basic French, bacon and onion savoury tart

ROUX

A mixture of melted butter/margarine and flour. (hot)

RUB IN

Combine shortening and flour by rubbing with fingertips.

SAUTÉ

Fry gently in oil or fat until translucent and glossy.

SCALD

to heat to a temperature just short of the boiling point: *to scald milk*.

SEAR

To brown a food, usually meat, quickly on all sides using high heat to seal in the juices.

SHRED

Cut food into very thin longitudinal slices.

SIFT

Gently shake dry ingredients through a sieve to incorporate air into a mixture.

SIMMER

Boil gently, below boiling point.

SLICE

Cut into thin broad pieces or wedges.

STEAM

To cook a food in the vapour given off by boiling water.

STEW

To cook food in liquid for a long time until tender, usually in a covered pot; also the name of the mixture prepared this way.

STIR

Mix ingredients with circular movements.

VISCOSITY

Thickness/consistency

WHIP

To whip (eggs, cream, etc.) to a froth with a whisk or beating instrument. (Whisk)

WHITE SAUCE

White sauce is made by stirring milk into a butter-flour [ROUX](#). The thickness of the sauce depends on the proportion of flour and butter to milk. The proportions for a thin sauce would be 1 tablespoon each of butter and flour per 1 cup of milk; a medium sauce would use 2 tablespoons each of butter and flour; a thick sauce, 3 tablespoons each.

YEAST

Yeast is a living, microscopic, single-cell organism that, as it grows, converts its food (through a process known as fermentation) into alcohol and carbon dioxide.

ZEST

The perfumy outermost skin layer of citrus fruit (usually oranges or lemons), which is removed with the aid of a [CITRUS ZESTER](#), paring knife or [VEGETABLE PEELER](#). Only the colored portion of the skin (and not the white pith) is considered the zest. The aromatic oils in citrus zest are what add so much flavor to food. Zest can be used to flavour raw or cooked and sweet or savoury dishes.
